

THE GAZETTE.

FRIDAY EVENING, JULY 3.

LEGISLATIVE HAYMAKING.—The members of the Hungarian Parliament are held in session in Pesth with great difficulty in consequence of news which they have received of the early maturity of the harvest and their desire to go to their respective homes and attend to the saving of its produce, particularly of the hay crop. This pastoral feeling is entirely at variance with that prevalent among our American lawgivers, who find their most profitable harvest in the halls of Congress in Washington and the State Legislature in Albany, and "make hay" in the "sunshine" of the shade of the lobbies. —N. Y. Herald.

The commissioner of immigration for the State of South Carolina has just made a report of the operations of his office for Registrar Orr. The commissioner says: "The registers of lands now embrace 332,660 acres, in almost every district of the State, for sale at reasonable rates and on favorable conditions; and nearly 6,000 acres of good lands, in salubrious sections of the State, have been registered to be given as a free donation to actual settlers, upon reasonable conditions of improvement." Notwithstanding these offers, the laborers do not respond.

A single individual is building one hundred and twenty-five dwellings in the "upper part" of Ice Cream Saloon.
